

● Always check with your veterinarian or ASPCA poison control hotline 24/7 @ (888)426-4435 (consultation fee may apply).*

● Inducing vomiting inappropriately can be harmful.
Do not use if your dog is unconscious or vomiting already.
Use within 2 hours of incident.

● USE ONLY 3% HYDROGEN PEROXIDE.
Fill to the corresponding weight of your dog (2.2 lbs = 1 kg).
Dispense with the syringe tip angled toward your dogs cheek.

● If vomiting has not occurred within 15 minutes, give one more dose of hydrogen peroxide.

● Collect a sample and bring your dog to your veterinarian asap.
